2026 Market Advantage GIC: Series 158-B

Canadian Stock Market GIC

Linked to the S&P TSX 60 Index

Product Features

- Your CAD principal and a minimum full-term return of 2.5% is guaranteed
- But any return above the minimum 2.5% depends on the S&P TSX 60's price return
- If the index increases enough, this GIC can pay you up to 42% return, but not more
- So, this GIC provides downside protection in exchange for capped upside potential
- Non-Redeemable — before investing, please be sure you will not need your invested funds before term end

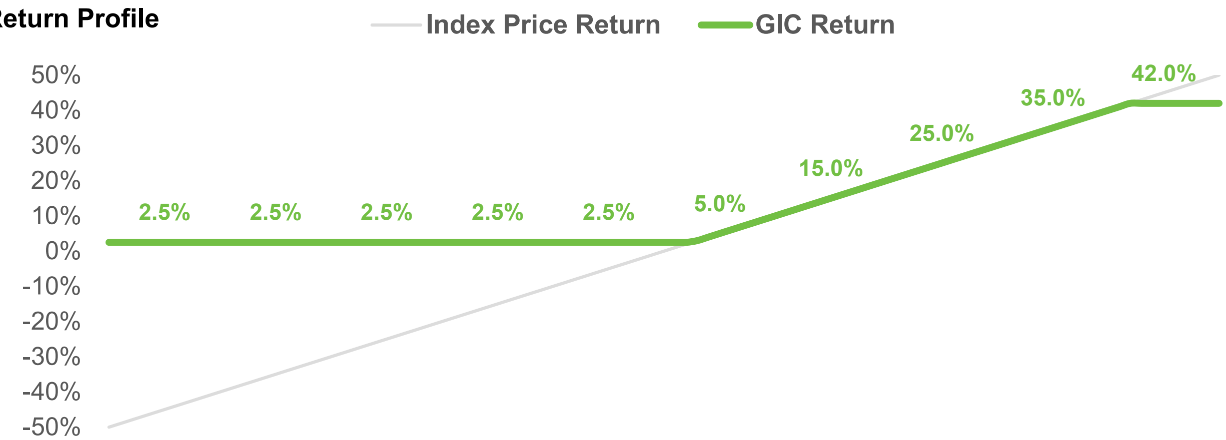
Return Profile



Return Calculation

Your GIC's return is calculated as the percentage change of the S&P TSX 60 from its starting price to its ending price. Its starting price is its end-of-day value on Oct. 15, 2026. Its ending price is the arithmetic average of its end-of-day values on three dates (Aug. 15, 2031, Sep. 15, 2031, and Oct. 15, 2031).

Note: *Dividends paid by stocks in the index do not contribute to your return.*
