

2026 Market Advantage GIC: Series 155-B

American Stock Market GIC

Linked to the S&P 500 Index

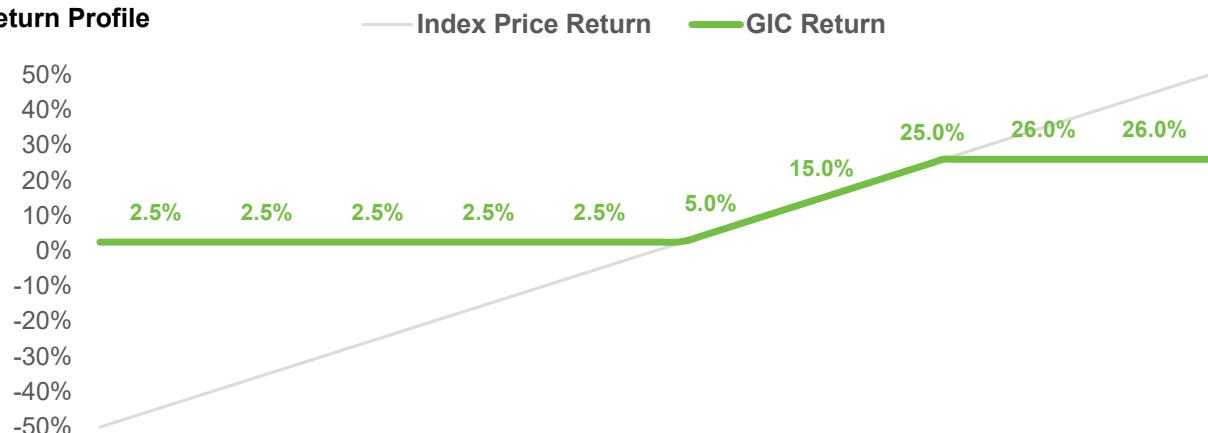

Product Features

- Your CAD principal and a minimum full-term return of 2.5% is guaranteed
- But any return above the minimum 2.5% depends on the S&P 500 Index's price return
- If the index increases enough, this GIC can pay you up to 26% return, but not more
- So, this GIC provides downside protection in exchange for capped upside potential
- Non-Redeemable — before investing, please be sure you will not need your invested funds before term end

Return Profile

Return Calculation

Your GIC's return is calculated as the percentage change of the S&P 500 Index from its starting price to its ending price. Its starting price is its end-of-day value on Apr. 08, 2026. Its ending price is the arithmetic average of its end-of-day values on three dates (Jan. 31, 2031, Feb. 28, 2031, and Mar. 31, 2031).

Note: Dividends paid by stocks in the index do not contribute to your return.

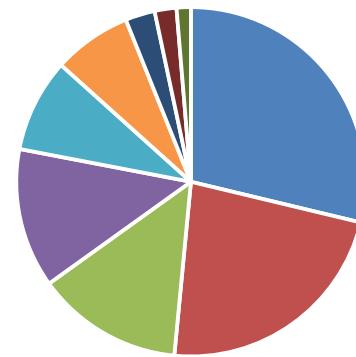

S&P 500 Index Details

- Market Cap: \$67.2 Trillion
- Dividend Yield (Past Year): 1.07%
- Number of Stocks: 503
- Weighting Methodology: Cap-Weighted
